**About the presenter**

Since 2005, Dr Marina Hurley has specialised in teaching scientific and professional writing through her *Writing Clear Science* training consultancy. Prior to 2005, Marina worked as an ecological scientist for 20 years. Marina is Visiting Fellow at UNSW teaching PhD students. Based in Melbourne, Marina regularly travels across Australia delivering workshops. [au.linkedin.com/in/marinahurley/](http://au.linkedin.com/in/marinahurley/)

**Overview**

Designing a paper for publication or a report for a client is a complex process. Through the *Writing Reports & Papers* workshop, we show you how to design your document according to the aim of your project and your audience needs. We explain what you need to write in each section of your document, paying particular attention to the introduction and discussion sections. The workshop includes practical exercises that allow you to work on your own project(s).

**Learn how to**

- Identify your audience and how to accommodate their needs
- Clarify the aim of your document
- Introduce your topic clearly and in context
- Discuss your findings while maintaining relevance and impact
- Decide what literature or information should be included to strengthen your story

**What you take away**

- Improved report and paper writing skills
- A rewritten draft of your own work that you complete during the workshop (optional)
- Editing and feedback of one page of your writing, completed by the presenter (optional)

**Resources provided**

- The *Writing Clear Science* workshop handbook
- A workshop participation certificate
- Worksheets and templates for future use
- Recommended reading list
