**About the presenter**

Since 2005, Dr Marina Hurley has specialised in teaching scientific and professional writing through her *Writing Clear Science* training consultancy. Prior to 2005, Marina worked as an ecological scientist for 20 years. Marina is Visiting Fellow at UNSW teaching PhD students. Based in Melbourne, Marina regularly travels across Australia delivering workshops. [au.linkedin.com/in/marinahurley/](http://au.linkedin.com/in/marinahurley/)

**Overview**

For science to be understood, assimilated and further developed, it needs to be accessible through clear and concise writing. In the half-day *How to Write Concisely* workshop, Dr Marina Hurley shows you how to remove clutter, repetition and excess detail from your writing without sacrificing your message. The workshop includes practical exercises that allow you to work on your own project(s).

**Learn how to**

- Edit and critique writing to improve clarity and meaning
- Decide what detail is necessary to express an idea or topic
- Identify and fix writing that is ambiguous, unclear, repetitive and long-winded

**What you take away**

- Improved writing and editing skills
- A rewritten draft of your own work that you complete during the workshop (optional)

**Resources provided**

- The *Writing Clear Science* workshop handbook
- A workshop participation certificate
- Worksheets and templates for future use
- Recommended reading list
